

GUS NEWSLETTER

APRIL - MAY 2013

Hello!

GUS had various activities for the last two months. Visiting many beautiful places all over Bali was a plus! :)

Mangroves Planting

To welcome the Earth's Day, the Center for Sustainable Development of UNUD, Wanasari Fishermen Group of Tuban, along with the students, NGOs including GUS held mangroves planting in the area of Tuban on April 12.

Meeting with the Research Team from Secretary General of the House of Representatives

The team was conducting research with the theme "The Paradigm of Waste Management Implementation in Indonesia". One of their activities is to collect data / information through dialogue, with the management of the facility, the village of Temesi and GUS.

BIWA Bazaar and Fundraising - 25 April 2013

The event "Daughters of the Earth" aimed to commemorate Kartini Day which falls every April 21 and Earth Day every April 22. Bazaar coupled with Lunch is to raise fund for social activities being held by BIWA.

Bali Headbag Mob

The event was initiated by Greeneration Indonesia and Youth Corner as their partner. The activity was part of the Plastic Bag Diet Campaign, to spread the idea to bring our own bags when shopping, so we could reduce the plastic bags waste (as it is used once and then thrown away).

Waste Education for Children

The waste education for children was conducted for the participants of Volcom Surfing Competition held at Half-way on April 28. GUS brought them new education material, which made from trash, our trash!

Waste sampling at TPST Besakih

The sampling was conducted to determine the composition of the waste that goes into TPST (Integrated Waste Facility) Besakih, to optimize the whole system. The sources of the waste mainly come from the ceremony activities at Pura Besakih. As predicted, the majority of the waste is organics, which up to 90% of the total waste.
