

HALO!

Here we share GUS activity during May and June.

Waste Sampling at Desa Bugbug

The purpose of the sampling is to determine the volume and the composition of the waste generated, so that appropriate waste management can be planned for Desa Bugbug.

Act Global

GUS supported the beach clean up conducted by Act Global at Mertasari Beach, Sanur on June 22. Act Global is a community of worldwide volunteers that works on the issue of children's education.

Socialization of Bank Sampah

GUS in collaboration with Yayasan Bali Lestari Wastu visit all regencies in Bali to introduce the concept of Bank Sampah as part of an integrated waste management. This concept encourages everyone to sort their waste and therefore reduce the amount of waste that ends up in landfill (TPA).

But the most important thing one can do to be part of the solution is to minimize their own waste.

Sanitation Ambassador Election 2014

The event was held by Satker PPLP Bali from Ministry of Public Works and GUS, for junior high kids to compete on papers and posters on the theme of sanitation, which was also supported by Surfer Girl.

Pacitan Surf Competition

GUS supports the annual surfing competition in Pacitan again with GUS' educational books. We hope the books keep reminding everyone to love and preserve the environment.
